

A Valuable Book Free

Ask me to send you sealed, free, a book just completed, which will inspire any man to be bigger, stronger, younger (if he is old), and more manly than he ever felt. I am a builder of men.

I can take any weak, puny man and make him feel like a hero. Of course, I can't make a Hercules of a man who was never intended by nature to be strong and husky. I don't mean that.

But I can take a man who started with a fair constitution and before it got fully developed began tearing it down. That fellow is weak-nerved, slow, poky, lacking in vim, ambition and self-confidence. I can make a man of him in three months so that his own friends won't know him.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, or any ailment of that kind that unmans you, it would assure your future happiness if you would look into this method of mine. Don't delay it; your best days are slipping by. If you want this book I send it closely sealed free if you inclose this Ad.

75,000 TOURISTS COMING

The Promotion Committee expects this large number of tourists to arrive and suggests that the citizens of Honolulu beautify their grounds, and particularly, to paint their residences. This large number of travelers may not arrive in one year, but some of this number will undoubtedly be here this season. A little paint applied by Stanley Stephenson, the painter, not only preserves your property, but will impress the visitors with the neatness and good taste of our citizens.

New Premo Cameras

The Premo Camera presents advantages that no other camera possesses. That's why the Premo is superseding all other cameras in popularity.

The use of the film pack, which is more convenient and quicker to operate than the roll; the option of using plates; and the advantage of being able to focus on the ground glass for each picture, whether you use plates or films, are only a few of the strong points that go to make the Premo Camera desirable.

ATLAS HERE FOR SUGAR.

Twenty-six and a half days out from Yokohama the big white ship Atlas arrived in port at noon yesterday. The vessel came in ballast, and is consequently high out of the water. The trip across the Pacific was made in quick time. The Atlas comes here for a cargo of 5000 tons of sugar for New York.

The Atlas left New York for Yokohama on December 31, 1905, and arrived at her destination on May 31, going by way of the Cape of Good Hope. She carried case oil to the Japanese port and was chartered to come here for sugar. On reaching New York the vessel will have circumnavigated the globe.

The crew was interested in the news of the strike at San Francisco and that was the chief topic of conversation when an Advertiser man boarded the vessel. A sailor at the head of the gangway was a good sentry. He had orders not to let anybody aboard unless he had particular business with the captain and he obeyed orders to the letter. The guard was finally prevailed to let the scribe aboard. Whether his job was to keep runners off the boat, or to allow the captain to partake of his luncheon, which was then being put, steaming hot, on his table, is a question. At any rate, after the reporter got the captain away for a few minutes, a feminine voice called through a porthole to the captain to "hurry, or your dinner will get cold."

The passage of the ship from New York to Honolulu was uneventful. The vessel ran into no gales, lost nobody overboard and the health of the

The Atlas is a sister ship of the Astral, which is on the way here from Yokohama, to take in a sugar cargo.

Then the Arthur Sewall, and the William P. Frye, two big ships, are on the way from Manila. In fact the Frye is out 31 days and the Sewall 30 days and they should arrive any time.

The Atlas has a tonnage of 3006 and the Astral 2987. The Sewall is rated at 2019 and the Frye at 2998.

NEBRASKAN HAS SMALL CARGO.

With only about 1200 tons of cargo for Honolulu and 300 for Kahului, the American-Hawaiian steamship Nebraska reached port at 11 a. m. yesterday from Tacoma and Seattle. The steamer left Seattle on July 6, taking from there a large quantity of feed, doors, windows and general fittings. She brought no livestock this trip. By Wednesday the Nebraska will have discharged her cargo and taken on part of her sugar cargo of 4000 tons. The remainder will be taken on at Kapaemahu and Kahului.

The strike had no effect on the loading of the Nebraska at the sound.

"Grateful Results"
A life of suffering and misery, without sleep, without appetite. Restored to health by

Ayer's Sarsaparilla

"I was grievously afflicted with biliousness and liver complaint. My mouth was in a terrible condition every morning, my tongue thickly coated, my breath was offen-

sive, food distressed me, I suffered much from headache, my skin was sallow, and the many remedies I had used did me no good. At last I commenced using Ayer's Sarsaparilla, and my improvement began almost from the first dose. It relieved the distress about my liver, caused my food to digest well, cured my headache, improved my complexion, and restored my appetite. These unlooked-for but grateful results were accomplished by only two and a half bottles of Ayer's Sarsaparilla."—Mrs. LYDIA M. TARNOR, Altoona, Pa.

There are many imitations Sarsaparillas.

Be sure you get "AYER'S."

YOU WILL NOT
be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be. The men who try that are simply fools and soon come to grief, as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as **WAMPOLE'S PREPARATION** is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be is plain to everybody. It is beyond price in Insomnia, Anemia, Weakness and lack of Nervous Tone, Poot Digestion, Lung Troubles and Blood Impurities. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dake, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. "One bottle convinces." At chemist.
